

All your business communications, integrated, efficient, and reliable.

Take your business to the next level with fully integrated unified communications

INTERMEDIA UNITE

Intermedia Unite is a cloud-based unified communications and collaboration platform. It enables users to be more mobile, more productive and share ideas and content through a single system. Intermedia Unite is backed by a 99.999% network uptime SLA, and includes 24/7 J.D. Power-certified support.

Whether in the office or remote, Unite seamlessly integrates all your communication tools – desktop phones, mobile phones, and computers – into one manageable solution oriented around your employee's needs and workstyles.

The Intermedia Unite Platform

PHONE SYSTEM

- Cloud-based phone service with 90+ enterprise-grade calling features and excellent network call quality and uptime
- System configuration and call reporting are managed from a single web-based portal

MOBILE

- The Intermedia Unite Mobile App makes any smart phone an essential collaboration tool
- Extend your business phone number and extension to your mobile phone
- Place and receive calls, see who is available, chat with colleagues and manage voicemail—anytime, anywhere

DESKTOP

- The Unite Desktop App empowers employees with the flexibility to communicate the way that works best for them
- See who is available, chat with colleagues, place and receive calls, share screens, start video calls and share files—all from one application
- Use desktop application to place and receive calls or as a call controller for your associated desk phone or as a soft phone from your PC or Mac®

VIDEO CONFERENCING

- Face to face meetings via HD video eliminate unnecessary travel and empower teams with remote members to be more productive
- Establish a personal connection with customers and business partners, and improve internal communication between offices

SCREEN SHARE

- The computer desktop can be shared in real-time, improving collaboration and speed of decision making
- Viewers see desktop content via web browser in full HD. No downloads or browser extensions required

REMOTE OFFICE

- Intermedia's preconfigured phones can be plugged in to any location that has an internet connection
- Remote desk phones work exactly the same way as they do in the office, with access to all the same features and functionality as everyone else in the company

The Intermedia Unite Platform (Continued)

PHONE

- Intermedia Unite phones are plug and play, delivered pre-configured to work seamlessly with the Unite service
- No special setup or technician required
- Includes world-class manufacturers such as Polycom, Cisco and Yealink, with many models to choose from to meet any business need

VOICEMAIL

- Intermedia Unite voicemail can be managed and accessed according to user needs. Listen and manage from the desktop phone, or through the mobile app
- Transcribed voicemail messages can be delivered via email, or viewed on the mobile app
- Voicemail can be received or forwarded as a downloadable email attachment

PRESENCE INDICATOR

- Intermedia desk phones and applications include presence – the ability to see whether your company contact is available, or busy on the phone
- Desktop phones include a busy lamp field (BLF) in the LCD display that indicates presence
- The Intermedia desktop and mobile apps display presence information alongside each contact in the Active Directory

FAX

- Intermedia WebFax is a “virtual” fax service that allows users to receive and manage faxes via the web or email
- Transmits faxes directly from a Windows®-based PC
- Senders simply dial the WebFax number from their fax machine, as they normally would

TEAM CHAT AND MESSAGING

- Send and receive chats in real-time with team members (individuals and groups)
- Pin favorite contacts to the top of your list
- Mobile chat and desktop chat messages are instantly synchronized
- Chat messages are securely encrypted in transit and at rest

NETWORKING:

Each phone comes with a built in switch that allows you to connect the phone to the Internet connection in an office then connect the phone to a PC. If your existing network provides gigabit speeds, then a phone with gigabit capability is recommended.

PoE:

Power over Ethernet allows the phone to be used without the included power adapter if your network switch is capable of providing power to devices connected to it.

HEADSET CAPABLE:

All phones allow the use of external headsets. Please make sure to check the headset you buy to ensure it will work with your phones.
